How to Buy Your Own HomeUnit 2 Review

Working with numbers

1.	How many square feet would there be in a lot 70 feet long and 60 feet wide?
2.	How many square feet of carpeting would you need for a room 13' x 11'?
3.	How much fencing would you need to fence in a lot that is 100 feet by 50 feet?
4.	If a five-year termite guarantee was \$73.00 for one year and stayed the same for every year, how much would a five-year guarantee cost?
